By the annual report on commerce and navigation, it appears that the aggregate amount of entrances and clearances at the various ports of the United States during the year ending 30th June, 1847, was nearly seven millions of tons; which is not far short of the tonnage of the whole British dominions. Two thirds of the amount was American tonnage, and one third foreign. The number of entrances during the year were of American vessels, 7,730, tonnage 2,101,359, and of foreign vessels, 6,469, tonnage 1,320,346. Total number of crews 163,339. The clearances numbered, of American vessels, 6,102, tonnage 2,202

Advertisements will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters circulating in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

THE TELEGRAPH TO FALL RIVER.—During the last day or two, L. R. Darrow, Esq., the contractor who has been erecting the Telegraphs from Providence to Worcester, Taunton, Fall River and New Bedford, has been in town, and from him we have obtained some important information in regard to the contemplated line from this place to Fall River. He informs us that the cost of the Telegraph, delivered to the Company in perfect working order, will be three thousand one hundred and fifty dollars, or one hundred and seventy-five dollars per mile, which will make that amount, the distance being eighteen miles. We have no doubt but that the stock can be immediately taken up here, if our citizens are only disposed to amuse a little, and display some energy in the matter. The sum is but a trifling one, in comparison with the incalculable benefits that would result from the enterprise; and no place is more in need of the Telegraph than Newport, particularly if we mean to keep up with the age, and compete with other fashionable watering places, in all the attractions and conveniences which are requisite to induce visitors to come here.

The Telegraph is of incalculable benefit to business men, and they will certainly take their families to a watering place, in the summer season, where they can be in the instantaneous receipt of intelligence, particularly in regard to their own private affairs. Saratoga Springs is now connected with the principal places of the Union, by the lightning line, and if we do not have the same facility, by another summer, we must expect to lose many of those who would otherwise come here. Mr. Darrow owns the Telegraph to Saratoga, and when he built it, he was laughed at by many for attempting the experiment, and was told that it must be a total failure. It is thirty-two miles long, cost two hundred dollars a mile, and is kept in operation only four months of the year, and during that period of the last season, its receipts paid all the expenses, repairs on the route, &c., and gave the proprietor twenty-two and a half per cent. on his investment.

The New York and Philadelphia line, one of the first that was built, and upon the expenses were much greater than they now are, cost four hundred dollars per mile, and paid the whole expense of the construction, working and repairs, the first year. The New York and Buffalo line paid forty per cent. the last year.

The most unpromising line was from Auburn to Elmira, a distance of one hundred miles, and there are only two villages on the route, one of five thousand inhabitants, and the other of two thousand; it was not anticipated that this would ever pay a profit, as there were so few people along the line; but the citizens of Auburn and Elmira built it in self-defence, so as not to be completely isolated from all the world. The first year, to the astonishment of every one, it paid all its annual expenses, repairs, &c., and divided two thousand dollars among the owners. After this plain statement of facts, relative to the pecuniary value of Telegraph stock, will any of our citizens hesitate as to the expediency of investing a few dollars in the line from this place? We might enumerate many other instances, like those which we have given, but it seems entirely unnecessary. It will be sufficient to add that in not one instance has the Telegraph proved a failure, but in every one has it been found to be the most productive stock; and as evidence of this, the shares are never in the market for sale, and cannot be purchased, after the line is once in operation.

The Magnetic Telegraph will soon bind the different sections of the globe in one harmonious union, and the town that does not own a share of it, will be mark indeed. It was Alexander Selkirk on the Island of Juan Fernandez.

Every one in the community is interested in it, and the stock is in such small shares, it enables individuals to assist in raising the necessary amount. In Taunton, each of the

Banks took one hundred dollars worth of stock; our Banks ought also to do the same. Situated as they are, while their bills are redeemed at the Merchants' Bank in Providence, if a run was made on either or any of them, they might send to Providence, by Telegraph, and have a messenger here with any amount of specie, almost in the time that they were counting out what little they had on hand. A thousand other instances of the importance of the Telegraph will naturally suggest themselves to the minds of all.

We, therefore, earnestly beg of our citizens to wake up from their lethargy, and give even one symptom of animate being; build this Telegraph to Fall River, and our word for it, it will prove the magic wand that will arouse us from the sleep of centuries, to a healthy and vigorous existence.

ARRIVAL OF THE STEAMER MISSOURI.—The French Steamer Missouri arrived at N. York on Tuesday morning from Havre, via Halifax; she brought over 74 passengers, and one week later intelligence from Europe.

Sicily continues in a state of insurrection. There is also an insurrection in Greece. At Patras, the garrison were fighting with the people. The Governor was a prisoner in the hands of the insurgents. Many had already been killed and wounded. It is said that Grivas is at the head of the insurrection.

The Marseilles Courier adds, that this news was brought by the war steamer Ardent, with the India mail on board, and that the English government messenger had orders to make the greatest haste.

The Courier de Marseilles publishes a letter from the engineer who is at the head of the canal works between Pelonze and Suez. There is now no longer any doubt as to the intentions of Mehmet Ali as to piercing the Isthmus of Suez. "At this present time," says the Marseilles sheet, "the preparatory works are pushing on actively; commerce and science look on with equal interest."

Some of the French papers seem to think the British Government is about to abandon the possession of the Falkland Islands.

Intelligence from London to the 19th December was received at Paris, to the effect that bills were freely discounted by brokers and capitalists on the previous day, at 5 1/4 per cent. while the rate of the Bank of England was six per cent.

M. le Comte Gros, formerly minister to New Grenada, has been nominated by M. Guizot, Ambassador to the government of Rosas in the Argentine Republic.

M. Salvandy, one of the French Ministry, is on the eve of retiring from office. It is rumored that M. Linderes will take his place.

A meeting of conservators was held at M. Guizot's house, on the subject of the Presidency of the Chamber of Deputies, and it was decided that M. Guizot would probably be elected to that office.

According to private letters from Tripoli to the 23d November, it is announced that the whole country is in open rebellion against the Pacha, and that, as he had not troops sufficient to support him, he had sent to the Sultan for more. The rebels consist chiefly of almost savage tribes, assisted by some Albanians; it is added, but on doubtful authority, that a son of the Bey of Bengasi is at the head of this insurrection. All the Europeans are in the greatest alarm, as at this moment there is no man of war in the vicinity to protect them. The disorder had run to such a height, that the son of the English consul was assaulted in the streets.

WAR MATTERS.—It is reported and generally believed that Gen. Scott immediately returns from Mexico, and that the courts of inquiry relative to the officers have been transferred to Washington.

Mr. Secretary Walker has called upon many of the members of Congress for their views relative to the Mexican war in writing. The result is a long and elaborate review of the whole question, in which it is understood they take high ground in favor of the conquest of the whole country.

The N. Y. Herald of Saturday gives the following:—It was rumored in Wall street, yesterday, that the government at Washington had effected a loan with the Russian government, through M. Boderov, the Russian minister, for \$20,000,000, to be drawn for a bill on London or on St. Petersburg. This, if true, will turn the current of specie to this country.

We extract the following letter from the Providence Journal of Tuesday. We wish that arrangements could be made to induce Mr. Giles to deliver the same course of lectures in this town.

PHILADELPHIA, JAN. 13, 1848.

The only prominent intellectual entertainments in this city at the present time, are the lectures of the Rev. Henry Giles, upon that best of romances, "Don Quixotte," which are delivered weekly, before the largest audiences ever before assembled for such a purpose in Philadelphia.

He has thus far delivered five of the eight lectures in the course, and they far surpass all of his previous efforts. The romance forms his text; from this his subjects are created, and we have economy, literary fame, fiction, womanhood, &c., in all the vigor of his expanded intellect. The humor and pathos, blended with his stirring eloquence, vivid imagination, and profound reasoning, catch in the audience with rapid attention, from the commencement until its close.

The directors of the Mercantile Library Company state in their annual report that,

"They have made a satisfactory engagement with the celebrated lecturer, Henry Giles, for a series consisting of eight original lectures on various topics, which are now in the course of delivery at the Musical Fund Hall. Four have already been given. The directors would do injustice to their feelings, and to the eloquent gentleman who so kindly and promptly responded to their invitation, were they to withhold their high sense of the admirable manner in which the gifted lecturer has acquitted himself. The thronged and intellectual audience of both sexes that weekly listen with such evident delight to his beautiful discourses, would render superfluous any eulogium here, on their fine intellectual scope, and extraordinary power and freshness. It may be sufficient for the directors to record their conviction, that no one has listened to that accomplished orator, without finding both his heart and intellect expanded and improved."

ARRIVAL OF THE CAMBRIA.—The British Mail Steamer Cambria, Capt. Jenkins, from Liverpool and Halifax arrived at her wharf in Jersey City at about ten o'clock Tuesday evening. Her news has not yet been received.

The Hon. HENRY Y. CRANSTON is to address the citizens of Woonsocket, by invitation, next Saturday evening, on the Mexican war.

A subscription paper for the stock of the Magnetic Telegraph between this place and Fall River, will be found at this office, where persons are invited to call and enter their names.

THE TELEGRAPHIC NEWS is the title of a new daily paper published at Norwich, Conn., by W. Faulkner, Esq. We have only seen two or three numbers of it, but from what we have seen, we like it much. Norwich ought to support a daily paper, and we believe it will if properly conducted. Several attempts have heretofore been made to publish a daily paper in that town, all of which have failed, but we hope to be in the receipt of the TELEGRAPHIC NEWS, every day. Local news is what interests us the most, neighbor Faulkner.

Walter Jones, Reverly Johnson, and S. J. Burr, were attorneys for Mrs. Gaines, and it is said their fees are \$50,000 each.

In consequence of the destruction of houses and other buildings caused by the late floods there is an immense demand for laborers in Ohio. In one village alone (Marbletown) three hundred hands are wanted at present.

The best thing to be done when evil comes upon us, is not lamentation but action—not to sit and suffer, but to rise and seek the remedy.

JANE EYRE, AN AUTOBIOGRAPHY.—The Harpers have just issued this much talked of romance, price 25 cents. Few works of fiction have recently created more stir in the literary world. The press in Great Britain seems unanimous in praising the performance: one of the number characterizes it as "a most extraordinary production. We know no author who possesses such power as is exhibited in these volumes—a writer who can sustain such a calm, manly tone, and so deeply interest without having recourse to any startling expectations." MEDICAL USES OF THE WILD CHERRY.—Ever since the settlement of America, Wild Cherry has been known to possess very important medicinal virtues. Every body knew this fact, but nobody knew how to extract its essential properties. Every mother gives Wild Cherry to her children for worms, for colics, and for almost every disease; and adults throughout our country are in the habit of making a compound or syrup of wild cherry bark, and other ingredients, to be used in spring as an antidote to complaints incident to that change of season. It is found by experiment that the wild cherry possesses even far more important qualities than was ascribed to it. For the first stages of Consumption, Asthma, no matter how long standing, Coughs, Liver Complaint, etc., it is proved to be the best medicine known to man.—Dr. Wistar's Balsam of Wild Cherry is a chemical extract, combined with a similar extract from Tar, which enhances its value. Its success in curing Pulmonary disease, in almost every stage, after our best physicians could do no more, has astonished the faculty, and led them to confess that Wistar's Balsam of Wild Cherry possesses a principle heretofore unknown among medical men.

None genuine, unless signed I. BUTTS on the wrapper.

CAUTION.—The public are particularly cautioned against being imposed upon by persons who are selling preparations of Sarsaparilla which they pretend have the same qualities as *Deanna Sarsaparilla* and *Tomato Bitters*. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other

person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that Rev. J. H. Hibbard's Vegetable Pills are the best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bilious Diseases are rife throughout land. To travellers, emigrants, soldiers, families, we say neglect not to provide yourself with so potent a purifier of the blood; so mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. J. H. Hibbard is on the label of each box. All are invigorated. T. H. Hibbard, M. D., 96 John New York, proprietor. See advertisement in other column. m352

JONES'S SOAP.

Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark, withered! Why, 'twill repulse the love of any man! These freckles, too, you know they'd quickly fly if Jones's Soap you'd use; come once—do try! It costs but fifty cents, and I am told 'tis worth, ay, doubly worth its weight in gold. Persons who have had no faith in it, have been astonished at the wonderful effect of Jones's Soap, the genuine Jones's Soap—in purifying the skin. For sale by Dr. R. J. Taylor.

The Lady's Skin in Radway's Soap.

I know my face is Tanned and Freckled, With Pimples, and with blotches speckled Sunburn and other annoying spots, With Scars, Mole and Salt Rheum, Upon my cheek assumes To reign with full authority.— But ah! my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medicated— Is the name of this precious Soap: I really cure all heretofore stated— Eclat Pimples, blotches, Tan or Spots. The lady hair she spoke the truth, She found the Soap the friend of youth, And beauty now assumes its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or blotches, Pustules or Tan, On the neck, the nose, the face or hands, Of it perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medicated Soap.

A secret which heightens the ingenuity of all who have attempted to analyze its properties. *Radway's Chinese Medicated Soap.* The extraordinary effects of this delicious emollient is truly astonishing for no sooner is Radway's Soap applied to the face, than tan, sunburn, pimples, blotches, and other excrescences speedily disappear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Is for 25¢ for large, and 15¢ for small, at 2 Courts St. N. Y. R. J. TAYLOR, Agent.

A COMMON COLD AND COUGH.—It should be remembered that a cough is an evidence that impurity is lodged in the lungs, which, if not speedily removed, will so irritate those delicate organs as sooner or later to bring on inflammation of the lungs—a form of disease which we all know is the high road to consumption.

Wright's Indian Vegetable Pills are a most efficient medicine for carrying off a cold, because they expel from the system all morbid and corrupt humors (the cause of every kind of disease) in an easy and natural manner. Four or five Wright's Indian Vegetable Pills taken every night on going to bed, will in a short time remove the most obstinate cold—at the same time the delicate organs will be restored to a healthy state, and the blood completely purified.

Beware of Sugar Coated Counterfeits.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD No. 39 Thames-st., Sole Agent for Newport; by Nathan Dennis, Portsmouth; Seabury & Son, Tiverton Bridge; Arnold Smith, Tiverton; Four Corners; H. F. Brown, Little Compton; A. A. Brown, Adamsfield. Wholesale at the No. England Office, 195, Tremont-st., Boston.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the various processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which all latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combining. Experience, observation, and a cloud of witnesses establish the fact that SAND'S SARSAPARILLA is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

[Extract of a letter from Dr. Williams of Vt.] Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A Boyden, Esq. of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

The great and only Successful Remedy for the cure of Consumption.

IS Dr. E. W. Vandersmith's INDIAN COUGH BALM AND LUNG BALSAM.

READ—
Disease of the Lungs and Throat cured.

This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had a large caustic applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V. and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,
EDWARD C. THOMPSON.

New York, June 19, 1847.

Dr. Vandersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing fits, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats, had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but what is justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,
JAMES B. HENDERSON.

Consumption.
Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians. I was recommended by Dr. Mitchell of Philadelphia, to use a Breathing Tube. I purchased one, only made use of it one week it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom he had cured. I sent for half a dozen bottles. I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound.

Yours, &c., ROBERT WILLSEY.

Look at This.

IF Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them, you do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dropsy, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken, under all circumstances, without regard to drinks or diet.

Hyer's Pills.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.

THIS medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, but the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aim to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Boyle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known only to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxurious state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls.

When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOYLE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by WM. Boyle, accompanies each bottle. Aug. 21—1y.

CLICKER'S SUGAR-COATED PILLS.

The grand purgative for the cure of headache, piles, rheumatism, dyspepsia, scurvy, small pox, jaundice, rising in the throat, fevers of all kinds, heartburns, coughs, consumption, erysipelas, deafness, colds, gout, gravel, pains in the back, palpitation of the heart, inward weakness, dropsy, asthma, measles, scald rheum, worms, quinsy, whooping cough, fits, liver complaint, itchings of the skin, nervous complaints, and a variety of other diseases, arising from impurities of the blood, and obstructions in the organs of digestion.

CAUTION.—Beware of an imitation article called Improved Sugar-Coated Pills, purporting to be patented, as both the pills and pretended patent are forgeries, got up by a miserable quack in the city of New York, who for the last four or five years has made his living by counterfeiting popular medicines.

Remember, Dr. C. V. Clicker is the inventor of sugar-coated pills, and that nothing of the sort was ever heard of until he introduced them in June 1843. Persons should therefore always ask for Clicker's sugar-coated pills, and take no others, or they will become the victims of a fraud. 25 cents per box, or five boxes for \$1.

Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six right inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

READER! READER

If you are afflicted with Bronchitis, Asthma, Obstruction of common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have benefited or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Aments, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 103 Eldridge-st.
Mr. Alonzo Brown, 72 Rensselaer-st.
Mrs. Morgan, 162 Front-st., Brooklyn.

Orange County April 19th, 1846.

Dr. EMANUEL.

Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear Sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear Sir, with great sincerity,
ISAAC J. REED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent;

Price fifty cents a bottle, or larger sizes one dollar.
